PROFILE

I am a passionate, solution-oriented full stack developer with a background in sales and account management. I'm comfortable working with diverse teams and pride myself on my mid-western work ethic. I'm experienced in JavaScript, ReactJS, Bootstrap, NodeJS, (MERN), NextJS, SQL, Python, FlaskSQL, REST APIs, and Git. I'm capable of building both cohesive, interactive layouts and robust APIs to create an optimized and smooth experience for the end user.
